

## 日本第四紀学会 若手学術賞受賞者一覧

2024年

中西 諒

Nakanishi, R., Ashi, J., Miyairi, Y., and Yokoyama, Y. (2022) Holocene coastal evolution, past tsunamis, and extreme wave event reconstructions using sediment cores obtained from the central coast of Hidaka, Hokkaido, Japan. *Marine Geology*, 443, 106663, <https://doi.org/10.1016/j.margeo.2021.106663>.

Nakanishi, R. and Ashi, J. (2022) Sediment transport modeling based on geological data for Holocene coastal evolution: Wave source estimation of sandy layers on the coast of Hidaka, Hokkaido, Japan. *Journal of Geophysical Research: Earth Surface*, 127, e2022JF006721, <https://doi.org/10.1029/2022JF006721>.

Nakanishi, R., Ashi, J., Aizawa, M. and Naruse, H. (2023) Application of mineralogy and geochemistry to identify the landward extent of paleo-tsunami deposits not visible to the naked eye in the coastal wetland of Erimo, Hokkaido, Japan. *Sedimentary Geology*, 447, 106365, <https://doi.org/10.1016/j.sedgeo.2023.106365>.

2022年

篠崎鉄哉

Shinozaki, T.

「Geochemical approaches in tsunami research: current knowledge and challenges」  
*Geoscience Letters*, vol. 8: 6, 2021. <https://doi.org/10.1186/s40562-021-00177-9>

Shinozaki, T., Yamaguchi, N., Sekiguchi, T.

「Flume experiments test grain-size distribution of onshore tsunami deposits」  
*Sedimentary Geology*, vol. 407, 105750, 2020.  
<https://doi.org/10.1016/j.sedgeo.2020.105750>

Shinozaki, T., Sawai, Y., Ito, K., Hara, J., Matsumoto, D., Tanigawa, K., Pilarczyk, J.E.

「Recent and historical tsunami deposits from Lake Tokotan, eastern Hokkaido, Japan, inferred from nondestructive, grain size, and radioactive cesium analyses」  
*Natural Hazards*, vol.103, 713-730, 2020. <https://doi.org/10.1007/s11069-020-04007-7>

石輪健樹

Ishiwa, T., Yokoyama, Y., Obrochta, S., Uehara, K., Okuno, J., Ikehara, M., Miyairi, Y.

「Temporal variation in radiocarbon pathways caused by sea-level and tidal changes in the Bonaparte Gulf, northwestern Australia」  
*Quaternary Science Reviews*, vol. 266, 107079, 2021. <https://doi.org/10.1016/j.quascirev.2021.107079>

Ishiwa, T., Okuno, J., Suganuma, Y.

「Excess ice loads in the Indian Ocean sector of East Antarctica during the last glacial period」 *Geology*, vol. 49, 1182-1186, 2021. <https://doi.org/10.1130/G48830.1>

2021年

石村大輔

Daisuke Ishimura, Shinji Toda, Sakae Mukoyama, Shin'ichi Homma, Kyoko Yamaguchi and Naoya Takahashi

「3D surface displacement and surface ruptures associated with the 2014 Mw6.2 Nagano earthquake using differential Lidar」 *Bulletin of the Seismological Society of America*, 109, 780-796.

Daisuke Ishimura and Keitaro Yamada

「Palaeo-tsunami inundation distances deduced from roundness of gravel particles in tsunami deposits」 *Scientific Reports*, 9, 10251.

Daisuke Ishimura and Reona Hiramine

「Proximal-distal fall deposit correlation of VEI-5 tephra (Towada-Chuseri) from Towada volcano, northeast Japan」 *Journal of Quaternary Science*, 35, 334-348.

石澤堯史

Takashi Ishizawa, Kazuhisa Goto, Yusuke Yokoyama and Yosuke Miyairi

「3 Non-destructive analyses to determine appropriate stratigraphic level for dating of tsunami deposits」 *Marine Geology*, 412, 19-26.

Takashi Ishizawa, Kazuhisa Goto, Yusuke Yokoyama and James Goff

「Dating tsunami deposits: Present knowledge and challenges」 *Earth-Science Reviews*, 200, 102971.

2020年

平林頌子

Shoko Hirabayashi, Yusuke Yokoyama, Atsushi Suzuki, Tezer Esat, Yosuke Miyairi, Takahiro Aze, Fernando Siringan and Yasuo Maeda

「Local marine reservoir age variability at Luzon Strait in the South China Sea during the Holocene」 *Nuclear Instruments and Methods in Physics Research Section B: Beam Interactions with Materials and Atoms*, 455, 171-177.

Shoko Hirabayashi, Yusuke Yokoyama, Atsushi Suzuki, Yosuke Miyairi, Takahiro Aze, Fernando Siringan and Yasuo Maeda

「Insight into Western Pacific Circulation from South China Sea Coral Skeletal Radiocarbon」 *Radiocarbon*, 61, 1923-1937.

2018年

北場育子

Ikuko Kitaba, Masayuki Hyodo, Takeshi Nakagawa, Shigehiro Katoh, David L.  
Dettman and Hiroshi Sato

「Geological support of the Umbrella Effect as a link between geomagnetic field and  
climate」 Scientific Reports, 7, 40682
